JOYFUL MOMENTS

A&C OSLO COLLECTION SS 2025

Inspirert av havet har vi fanget essensen av bølger, livet i havet, skjell og sølfylte strender. De bringer med seg en følelse av frihet, glede og eventyr. Kolleksjonen består av smykker i de herligste farger som reflekterer den vakre naturen langs den solfylte, franske rivierakysten. Smykkene er laget med lette materialer, som perler og halv-edelstener, som gir en organisk følelse og en unik karakter. Bli med oss inn i en verden av inspirasjon og glede.

Inspired by the sea we have captured the essence of waves, marine life, shells, and sunlit beaches. They bring with them a sense of freedom, joy, and adventure. The collection features jewelry in the most delightful colors that reflect the beautiful nature along the sun-kissed French Riviera. The pieces are crafted from lightweight materials, such as pearls and semi-precious stone, giving them an organic feel and unique character. Join our moments of inspiration and joy.

WHITE DREAMS

White Dreams er en stilren kolleksjon basert på rene former og subtile detaljer. Ulike hvittoner, innslag av grått og glitrende krystaller, danner en harmonisk helhet. Kontrastene mellom matte og blanke overflater i gull tilfører det lille ekstra. Like fine alene som lag på lag. Belagt med ekte gull.

White Dreams is a sleek collection based on clean lines and subtle details. Various shades of white with hints of gray and sparkling crystals create a harmonious whole. The contrasts between matte and polished gold surfaces gives the jewellery substance. Equally beautiful worn alone or layered. Plated with real gold.

SWELLS

Swells er en statement-kolleksjon, inspirert av myke dønninger på havet. Hver del er tidløs og rå, med et design som gir smykket et naturlig skimmer. Kolleksjonen er perfekt å kombinere med vår klassiske Sculptured-kolleksjon. Disse unike smykkene passer like godt til hverdagsantrekk som til spesielle anledninger. Belagt med ekte gull og ekte sølv.

Swells is a statement collection inspired by the gentle swells of the sea. Each piece is timeless and raw, with a design which gives the jewelry a natural shimmer. The collection is perfect for pairing with our classic Sculptured collection. These unique pieces are just as suitable for everyday wear as they are for special occasions. Plated with real gold and real silver.

VIBRANCE

Vibrance er en nydelig, fargerik kolleksjon som løfter ethvert sommerantrekk. Smykkene består av teksturerte mynter dekorert med glitrende, fargerike steiner. Her kan du velge enkle anheng som kan styles lag-på-lag. Eller du kan velge større smykker med charms, som er en av sesongens store trender. Belagt med ekte gull og ekte sølv.

Vibrance is a beautiful, colorful collection adding that perfect touch to your summer outfit. The collection is based on textured coins adorned with sparkling, colorful stones. Here you can choose single pendants which are perfect for layering. Or if you prefer a bolder look, choose pieces with charms – one of this season's major trends. Plated with real gold and real silver.

Stålsmykkene i gull har IP-plattering som også benyttes på klokker. Denne platteringsmetoden gir særdeles god holdbarhet. Helt perfekt for deg som helst vil ha smykkene på, uansett hva du gjør.

Pure Steel collection is one of our bestselling collections – sharp, elegant, timeless and very wearable. Perfect basics to combine with other jewellery. Pure Steel is highly polished 316 steel. Gold items are plated with 14 kt gold. We always use IP plating, the most durable plating process. IP plating is commonly used on watches. Perfect jewellery to wear everyday, whatever you do.

A&C CLASSICS

A&C Classics er et utvalg av tidløse bestselgere og gode basic smykker verdt å ha med i din kolleksjon.

A&C Classics is a selection of timeless bestseller collections and basics worth adding to your collection.

REVERSIBLE HEARTS

Kurvede hjerter med et dryss av glitrende steiner på den ene siden, og blank, metallisk overflate på den andre. Det store hjertekjedet kan enten brukes langt, eller som 2-rads kort kjede. Den perfekte gaven til deg selv eller en du er glad i. Belagt med ekte sølv, eller ekte gull.

Concave hearts decorated with scattered sparkling stones on one side and smooth, metallic surface on the other, so they can be used on both sides. The big heart necklace can be used as a long necklace or as 2 row short necklace. The perfect gift to yourself or someone you care about. Plated with real silver or real gold.

COINS OF RELIEF

Det er noe spesielt med smykker med mening. Disse myntene er dekorert ordene: «stop, observe, accept, let go». Hvis uroen kommer, prøv å stoppe opp og observer hva som skjer for deretter å akseptere at ting er som det er - og så gi slipp. De glitrende krystallene i kombinasjon med den røffe teksturen i teksten, gir kolleksjonen et avslappet og samtidig elegant uttrykk.

There is something about jewellery which have a special meaning. These coins are decorated with the words: «stop, observe, accept, let go». If you feel uneasy, try to stop and observe what is going on, and then accept that things are as they are, without trying to change anything – and just let go. The sparkling crystals combined with the rough embossed text, give the collection a feeling of relaxed elegance.

QUALITY

We draw all parts in Norway, down to the smallest detail. Our jewellery is made of the best materials. The castings are made from brass or alloy which are free from lead, nickel and cadmium. The earrings have titanium posts. The plating standard is of high quality, and is upgraded to real burnished silver and real burnished gold plating which adds value both for you and your customers. The stones used, are mostly Swarovski and Austrian crystal stones, but we also use hand cut glass jewels made exclusively for us.

Our Pure Steel jewellery has a high polished surface with no plating. Gold items have IP plating on steel base – the most advanced and durable plating process.

WE CARE

It is important to us what the jewellery is made of, and also how the jewellery is made. We focus on ethical trade and quality down our supply chain. Our philosophy is that good products become better when made by good people. All our standards comply with international standards for health and environment, and we make sure to never use endangered materials. We care for the good things in life, we care about the environment, the people who produce our jewellery and we care about you!

We are here to serve you in the best possible way, and please contact us if there is anything we can do for you. We wish you all the best of luck with selecting your favourite items – and good luck with the sales!

WEAR AND TEAR

A&C Oslo jewellery is high quality fashion jewellery, and subject to wear and tear the same way as all other wearable things. Eventually the jewelry may become worn out, e.g. like a shoe or a sweater. How fast depends on how much its worn and treated. Saltwater, sweat and cosmetics is harmful to plated surfaces, and should be avoided. Bending of metals may eventually cause breakage. Falling on hard surfaces, or exposure to water may cause glued stones to fall out. Do treat your jewelry with care, do not keep in moist environment, and remove during sports, sleep and hard work. You're A&C jewellery is made with the best materials, mostly in alloy castings completely free of nickel, cadmium or lead. The plating is durable and stones are glued with care. Errors caused by external influences are not considered production defects.

PRODUCT DESCRIPTION / WORD LIST

Crystal Stone / Strass - A shiny crystal glass stone shaped like a «diamond» with facets cut into a point. The stone has a foil on its backside that reflects the light and gives color. The stones are glued onto the jewellery.

Swarovski - most famous brand of crystal stones. Similar crystal stones are called strass or rhinestones, and are made in many levels of quality. Black Dia / Black Diamond is grey colored Swarovski stone, and comes in many other beautiful colours,

Bijoux - Word used for fashion jewellery made of non-precious materials for decorative purposes.

Casting / Original Casting - A&C Oslo design exclusive moulds for casting of jewellery parts. The castings are made of alloy or brass, before plating with real silver or real gold.

Core – base material of bijoux jewellery. A&C Oslo uses a metal alloy free from lead, nickel and cadmium which comply with international standards for health and environment.

Cubic Zirkonia / CZ - Synthetic mineral that looks like a diamond. The stone is faceted without foil on its backside. Cubic Zirkonia/CZ is usually set in a claw setting.

Pure Steel - Our steel jewellery is made up of 100% steel. It comes in three different platings: Steel (316 steel is a very durable and hard material where the surface has no plating, but is polished), Gold plated (real 14k gold on a steel base)

Electro plating - Gold or silver is transferred onto the base material in a bath using electrolysis. Usually done on an alloy base.

Freshwater Pearls - Pearls that are farmed and created using freshwater mussels. Colors are white, pink, grey and black.

Glass Beads - High quality beads made of glass that comes in many colors. Cut glass beads have many facets which reflects the light and glitters nicely. The beads can also be given a coating to create different decorative effects. Glass beads can also be round or have a matt surface.

Glass Pearl - Imitation of pearl – made of glass. Long lasting and high quality. The color is burned and will not tear of.

Handcut glass jewel - Hand cut glass jewels. Hand cut coloured glass, designed by A&C Oslo to fit A&C Oslo's original castings.

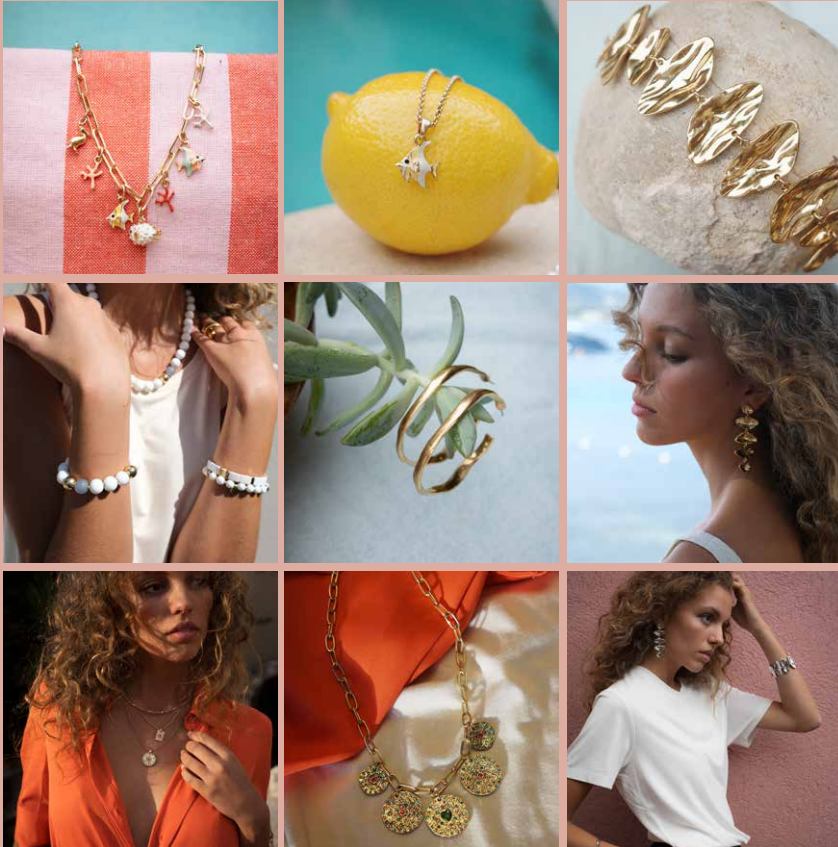

IP plating – gold - The most advanced and durable plating process – gold is merged onto the steel base by using vacuum.

Reconstructed stone - Man made stone beads made of minerals. The stones can be dyed in any color and made into any shape. The stone beads have a solid touch and looks like a semiprecious stone.

Recycled glass - Recycled glass which is handcut and polished. The pieces are individually shaped to each piece of hand sculptured pure silver/bronze.

Silver/Gold plated - A thick layer of pure silver or gold that covers the surface of the jewellery. The plating is lightly oxidized and coated for further protection.
