NORDIC SUMMER LIGHT

A&C OSLO COLLECTION SS 2026

SS2026 er en hyllest til nordisk sommeridyll med glitrende hav, varme svaberg, salt i håret og duften av blomster i kveldssol. Smykkene henter inspirasjon fra sommerens myke kontraster – det ville og sarte, det lette og varige.

SS2026 is a tribute to Nordic summer idylls with sparkling sea, warm rocky shores, salt in your hair, and the scent of flowers in the evening sun. The jewelry draws inspiration from the soft contrasts of summer – the wild and the delicate, the light and the lasting.

NORDIC DESIGN JEWELLERY

A&C Oslo er navnet på brandet vårt. Våre smykker er designet i Norge, med kjærlighet for detaljer - inspirert av den nordiske livsstilen. A&C Oslo bygger på en ekte kjærlighetshistorie, da to unge mennesker traff hverandre på en strand langt, langt av sted. De falt for hverandre og det fargerike mangfoldet verden har å by på. De ønsket at reisen skulle vare evig, og begynte å lage smykker - smykker som omfavner det autentiske og som inspirerer til å føle deg fri og avslappet.

A&C Oslo is our brand name. Our jewellery is designed in Norway, with passion for details - inspired by Nordic living. A&C Oslo is a jewellery brand created a long time ago when two young people met on a golden beach far, far away. They fell in love with each other and the colorful diversity the world has to offer. They wanted their journey to last forever, so they started making jewellery that embraces the authentic and inspires you to feel free and relaxed.

Freedom to be yourself
Respect for nature and other people
Embrace the world's diversity

SERENITY

Serenity er inspirert av den bohemiske stilen som preger motebildet. Skilpadden er dessuten et gammelt, vakkert symbol på visdom og beskyttelse – en påminnelse om å bevege oss gjennom livet med tålmodighet og mening. Denne kolleksjonen er perfekt å kombinere med for eksempel Solstice kolleksjonen. Belagt med ekte gull og ekte sølv.

Serenity is inspired by the bohemian style which is prominent right now. The turtle is also an ancient beautiful symbol of wisdom and protection – a reminder to move through life with patience and intention. This collection is perfect to combine with for example, Solstice collection. Plated with real silver and real gold.

COINS OF RELIEF

Det er noe spesielt med smykker med mening. Disse myntene er dekorert ordene: «stop, observe, accept, let go». Hvis uroen kommer, prøv å stoppe opp og observer hva som skjer for deretter å akseptere at ting er som det er - og så gi slipp. De glitrende krystallene i kombinasjon med den røffe teksten i teksten, gir kolleksjonen et avslappet og samtidig elegant uttrykk.

There is something about jewellery which have a special meaning. These coins are decorated with the words: «stop, observe, accept, let go». If you feel uneasy, try to stop and observe what is going on, and then accept that things are as they are, without trying to change anything – and just let go. The sparkling crystals combined with the rough embossed text, give the collection a feeling of relaxed elegance.

SOCIAL RESPONSIBILITY

A&C OSLO'S WORK WITH SOCIAL RESPONSIBILITY / A&C Oslo's commitment to social responsibility is continuously evolving – alongside our growth as a company and the times we live in. Today, we are part of the Dalema Group, and together we have developed *Guidelines for Responsible Business Practices*. For us, it is important to have clear rules governing our work related to human rights, working conditions, the environment, and anti-corruption. Our *Code of Conduct for Ethical Trade* is included in all supplier agreements, which our partners are required to sign and adhere to. The documents can be downloaded on [ac.no](#).

We believe that beautiful jewelry becomes even more beautiful when made by good people. That's why we are committed to ensuring fair and safe working conditions, both within our company and among our jewelry producers.

SUSTAINABILITY AND COMMITMENTS / Everyone knows that the fashion industry has a significant impact on the environment. We do our utmost to reduce the environmental footprint of our jewellery production. This work is constantly evolving. In addition to strict requirements for our manufacturers, we have entered a partnership with Grønt Punkt Norge and committed to submitting an Environmental Report from 2026. We strive to use recyclable materials in all our packaging whenever possible. However, we aim to strengthen our efforts, knowledge, and innovation related to making the right packaging choices – and, above all, to reduce the use of plastic.

SAFE JEWELLERY FROM A&C OSLO / Our manufacturers comply with the EU's *General Product Safety Regulation (GPSR)* and the EU's *REACH regulation; Registration, Evaluation, Authorisation and Restriction of Chemicals*. These regulations ensure that the production, marketing, and use of chemicals do not pose a risk to people or the environment. We also use independent laboratories to test our jewellery. This ensures that our products do not contain toxic metals such as nickel, lead, or cadmium. Jewellery should be something you wear with joy – and without worry. All our jewellery is produced in accordance with international laws and directives. The jewellery is made from skin-friendly materials suitable for daily wear.

QUALITY / We draw all parts in Norway, down to the smallest detail. Our jewellery is made of the best materials. The castings are made from steel, brass or alloy. The earrings have titanium or steel posts. The plating standard is of high quality, in real silver and real gold. The stones used, are mostly Austrian crystal stones, but we also use hand cut glass jewels made exclusively for us.

Our Pure Steel jewellery has a high polished surface with no plating. Gold items have IP plating on steel base, the most advanced and durable plating process.

WEAR AND TEAR / A&C Oslo jewellery is high quality fashion jewellery, and subject to wear and tear. Saltwater, sweat and cosmetics is harmful to plated surfaces and should be avoided. Do treat your jewellery with care, do not keep in moist environment, and remove during sports, sleep and hard work.

OUR PHILOSOPHY / At A&C Oslo, the words *Freedom, Respect, Diversity* are central to everything we do. We are motivated by the idea that everyone should have the freedom to be themselves, respect nature, and value the people around them. We embrace the diversity this beautiful world has to offer. When we design jewellery, we are inspired by the natural Nordic lifestyle – relaxed elegance and, above all, nature itself. Our jewellery is meant to highlight who you are; we are all different and unique, and so are our pieces.

We hope you find something you love with us – something that expresses your personality, brings you joy, and stays with you for a long time.
